

# The VISION

*"Where there is no vision, the people perish ..."* Proverbs 29:18

*The Monthly Newsletter of Mission To Haiti*

October 2015/Number 430

## It Is Still About The Children

Today, our sponsored children receive care through our medical clinic. Our nurse and clinic staff check the children on a full-time basis so they can address their medical needs. Our clinic doctor along with a local hospital in Port au Prince is ready to help with health needs that the children may have.

This care is made possible through your sponsorship offerings. When you sponsor a child and give to this ministry, your support impacts the lives of children in need.

Since Mission To Haiti began in 1981, our primary focus has been to help children in Haiti.

Some years ago, we met a pastor who told us that his seventeen-year-old daughter died of worm infestation. At the time, the remedy cost \$1. Sadly, he did not have the means to help his own child.

Our early medical teams spent much of their time in rural communities. On one particular day, the team's

emphasis was to deworm the children of that village. Small children and even babies were suffering with worm infestation. The team dewormed one of the babies in the morning. Later that afternoon, the mother came back to show us the worms that her child had passed that day! She held the worms on a stick to show us how large they were. The help that the team provided was remarkable.

Mission To Haiti is a 501(c)3 organization. Your donations are tax deductible.

# Partnership In Missions

## Helping Children From The Beginning

Before Mission To Haiti started, Bill Sr. began taking mission teams to work in the rural town of San Michel. At the time, it took twelve hours by Land Rover to reach this isolated community. The team traveled on the surface roads for 95 miles from Port au Prince to the city of Gonaives. There were so many pot holes that traveling was slow and difficult. The last 30 miles to San Michel went through undeveloped jungle.

San Michel was cut off from the rest of the world. There was no electricity, telephones or running water. It was primitive by any standards, but it was the place where we began serving. There were countless families who were isolated from everything including the Gospel.

It was there that we saw the need to help children for whom Christ died. It was in these difficult circumstances that we made a commitment to serve the Lord in one of the most challenging places in the world. Our mission remains the same, but we need your help. *Your special offerings will allow us to finish the year and begin 2016 ready to serve.*

## Suzanne And The Medical Clinic

Suzanne Labady is one of our most important employees. She supervises the medical clinic and makes sure the sponsored children have the opportunity to get the treatment and medications they need.

Last year, one of our sponsored children had to be hospitalized. The treatment would take several months to finish. Because the girl lives in the Ti Goave area, it would have been difficult for her to return home until everything was completed. Suzanne made the decision to keep the girl in her home until her treatment was over. Loving, caring people make the difference. Suzanne and Yves recently lost their baby. Please keep them in your prayers.
