April 2015/Number 424

## Clean Water, A Necessity For Good Health

Clean water is one of the most important factors to good health. Without it, most people are forced to drink from polluted sources. In Haiti, people contract diseases from contaminated streams and canals in densely populated communities. One of the deadliest illnesses is Cholera. Since 2010, 400,000 people have contracted this infectious disease in Haiti. More than 5,000 have died. The leading cause of infant mortality is contaminated water. Haiti has the highest infant mortality rate in the Western Hemisphere. This is why it is so important that we help to provide clean sources of water for the churches, schools and communities where we serve.

Recently, the well at Gallette Chambon went dry. The area has been experiencing a drought which affected the well. Last month, we asked for your help to repair the well. Thank the

Lord, we received the funds we needed to dig the well deeper. Thank you for your gracious response to this need! We sent funds to Haiti so that the well drillers can begin the work. We

are checking to see if there are any other wells that have been affected. Your prayers and support are blessing the lives of many children and families. Thank you for your help.

## House To House At Ti-Goave

One afternoon, the ladies on the January team visited families who live around Ti-Goave. At one of the homes, the ladies met a mother with her new baby. They gave her clothes and receiving blankets. The mother was very thankful. Touching the lives of the Haitian people in a personal way is an important part of reaching families with the Gospel. Thank you for your prayers and support which make this ministry possible.

# Partnership In Missions

## Time To Hear The Word

We always take the opportunity to worship with the Haitian people and participate in the services. When the teams are in Haiti, the visiting preachers are encouraged to deliver the message. It is the highlight of the week for the team members.

Many of the teams come to Haiti to hold Bible school for the children. It is a wonderful opportunity for them to present the Gospel in a simple yet profound way.

The opportunity to share the Word of Life with the Haitian people is wide open today. Children and adults are ready to hear from God's Word. Thank you for being a part of this work in Haiti.

## Sponsor A Child To Attend School

Sponsoring a child to attend Christian school is one of the best things you can do to help the Haitian people. Sponsorship allows your child to attend school, receive meals and get medical check ups.

The children in Haiti have completed their mid-term exams. They are back in class and ready to continue their studies. Please pray for your sponsored child that they will study hard and continue to do well in school.

If you do not support a child, this would be a great time for you to begin sponsoring.

Child sponsorship is \$35 a month or \$420 a year. You can find a child on our website who is waiting for help. Your prayers and support make the difference. Thank you.

## April Team

The April Mission Team plans to go to Haiti at the end of this month. We plan to rebuild the mission-house porch. We will also evangelize at Joineau and distribute food to families. Please keep the team in your daily prayers.
