

The VISION

"Where there is no vision, the people perish ..." Proverbs 29:18

The Monthly Newsletter of Mission To Haiti

April 2020/Number 484

With His Stripes We Are Healed **Isaiah 53:5**

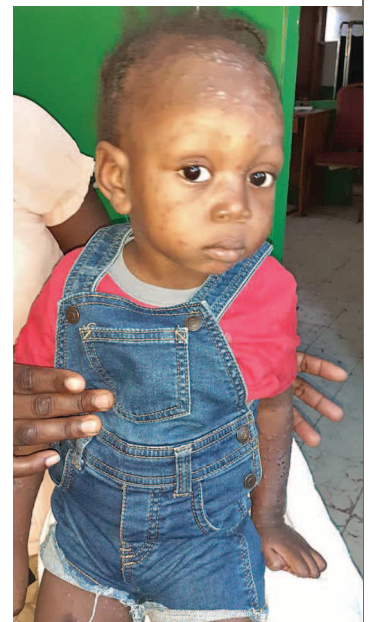

Joanne and her son Joabsley at the campus clinic

Last month, we got an urgent call from Alfred. He is the engineer who oversees the maintenance on our generators in Haiti. His sister's son, Joabsley, was sick and getting worse every day. Suzanne our Clinic Supervisor quickly arranged an appointment. Joabsley's body was covered with an infection. Dr. Lens began treating him that day. Suzanne witnessed to Joanne his mom and found out that she is already a believer.

Later, we checked on Joabsley. He had greatly improved. Alfred called us to say, "Suzanne is an angel on earth. We will always be thankful to you and your team."

Below: Suzanne in her office at the clinic. She does a great job overseeing the activities of the campus clinic. Bottom: Joabsley when he first came to be seen by Dr. Lens.

Easter is a special time for every Christian to celebrate the resurrection of our Savior. Because of the Coronavirus, we will celebrate Easter very differently this year. In a matter of weeks, our normal routines have been put on hold. It reminds us of an unprecedented event 2000 years ago.

The world stopped as Jesus died on the cross and rose from the grave that first Easter morning. Jesus suffered and died so we could be healed from the deadliest virus of all, sin. Today, the Lord has given us the Gospel and the means to help people who are suffering physically. Let us tell you about Joabsley.

Your Faithful Support Is Vital

We continue to serve during these uncertain times. Your monthly support is so important for us to keep going and doing the work in Haiti. As you pray and give, we continue to declare the Resurrection of the Savior and the healing power of the Great Physician. Thank you!

Partnership In Missions

School Books For Your Sponsored Child

Last month, we introduced a plan to buy new school books for the sponsored children. So far, the response has been very good.

On average, it costs \$50 to buy a set of text books in Haiti. We would like to ask you to consider buying your sponsored child a set of text books. *We would like you to give \$50 for each of your sponsored children between now and May. You can give on our website or you can send a check.*

In June, we will give our principals a list of the children whose sponsors gave money for text books. Summer is the best time to buy the books. When school starts in September, we will deliver the books to your child and get a picture of them with their new books.

We would like every sponsor to participate in this effort. Your child will be glad that you responded and provided them text books. Thank you for giving!

Shipment Arrives In Haiti

Our crew wrapping the pallets at Port Everglades

In February, we shipped seven pallets of food, supplies and equipment to Haiti to be used by the teams and our ministry partners. Among the pallets was a dental chair we plan to set up in the campus clinic. Last month, the pallets cleared customs and were delivered to the mission campus. Thank you for helping us send this shipment.

Because of the Coronavirus, we decided to cancel our spring teams. At this point, it is difficult to know when it will be safe to travel. We would like to resume the mission teams this summer. We will keep you posted. If you have any questions about the teams, please let us know. Thank you.

Team Dates

June 10–15, 2020

August 12–17, 2020

We cancelled our spring teams. We hope to resume the teams this summer.
