

Sponsorship Provides The Perfect Plan

This is Orasson Pierre from the community of Cotin. He is standing next to his brand new motorcycle. His sponsor, Jerry provided the funds to buy it so that Orasson could work as a motorcycle taxi driving. However, this is not where the story begins.

Orasson grew up in Cotin with his parents, four brothers and three sisters. It is an isolated farming village near the Haiti – Dominican border.

Orasson's parents enrolled him at Cotin in Preschool 1. Jerry began sponsoring him when he was in first grade. That is when Orasson's life changed.

Sponsorship meant the family could save money for household needs. When times were hard, Jerry bought food for the family. Jerry's faithful support brought relief to the whole family.

Orasson Pierre with his brand new motorcycle

Before the pandemic Orasson was planning to attend the Vocational School to learn a trade. When things closed, Orasson put his plans on hold. He began renting a motorcycle to earn money as a taxi driver. The income he was earning was a boost to the family's finances. As things reopened, Orasson decided to continue as a taxi driver.

He asked Jerry if he would be willing to buy him a motorcycle of his own. Jerry and his family were happy to help. They provided the money to buy a brand new motorcycle that Orasson can use for earning money and transportation. Being a taxi driver was not the plan. Sometimes our plans change.

Orasson works in the morning and goes to school in the afternoon. Jerry continues to help Orasson in every way he can.

Jerry's faithfulness put Orasson and his family in a better position for the future. Your faithfulness will have a real-life impact on the young people we are called to serve.

Partnership In Missions

New Well Needed At Guedon

Iglè Senat, the Guedon Principal with children from the school

Pastor Joel at the Gallette Chambon well

Thank you for your help to get the well at Gallette Chambon working. A team of professional well drillers discovered water in the well at its lowest depth. They were able to replace the pump, the pipes and mechanisms, and get the well working.

In the process, we found out that the well at Guedon is not working. The drilling team discovered that the well is 100 feet and completely dry. This has been an issue with other school wells.

We would like to drill a new well at 200 feet. This would give us the best opportunity of the well surviving any more drops in the water level. We received offerings already. We need \$6,430 in order to install this new well at Guedon. If you can help, your support will be greatly appreciated.

We received \$1,000 for the plastering project at the Guedon church. We need \$2,800 more in order to plaster the inside of the church. Thank you!

Four Lives Saved In The Medical Clinic

Sponsored children come to our campus medical clinic on a regular basis to see our doctors, have checkups and receive special help. In February, a group of children came with some of the parents. Pastor Yves Labady was there sharing the Gospel with those who were in the waiting area. Pastor Yves is the husband of Suzanne, our Clinic Supervisor. When Pastor Yves presented the plan of salvation to the group, three children and one of the moms accepted Christ!

Your prayers and support for Sponsorship and this ministry are helping change lives for eternity. The annual budget for the clinic is \$32,000. We are ready to do more, but we need your help. Your prayers and offerings make the difference!
