May 2025 / Number 545

Getting The New MTH School Equipped

So far, you have given \$49,000 to prepare the new preschool. Thank you for giving so graciously!

\$11,000 is still needed to finish. If you are able to give, you can mail your offering or give on the website under the heading MTH School.

Our sponsorship staff are taking requests from families who want their preschoolers to attend and be sponsored. Pray for more sponsors!

Thank you for giving so generously for the new preschool to get it ready for September. Your quick response allowed us to begin sending funds to Haiti without delay. The workmen have been able to complete the woodwork and paint the buildings. Little by little, the new facilities are taking shape.

The paint colors on the buildings look great. Traditionally Haitians paint with bright colors. It's a reflection of their joy and optimism. But for the past few years, bright colors seem less common. Local tap-taps and taxis that used to be vivid are now left unpainted. It's time to recapture that joy and enthusiasm.

Partnership In Missions

800 Family Packages Of Food Distributed So Far

In April, we shared how students at the Cazeau school were bringing their lunches home to feed their families. We asked for your help to give food to 400 families. In response, you sent that amount and much more. So far, 800 families have received a large package of rice and beans. Families at Cazeau and Guedon received food. We are finding that families in our other schools are struggling also. We will continue to distribute food as funds are available. Thank you for giving!

Families Receive New Solar Systems

In April, faithful sponsors provided solar systems for their two sponsored families. Neither family had power in their home. Now they can operate lights, charge devices and do more to make their life better. Please contact us to learn how you can help your sponsored family.

Sponsorship Staff Need A Motorcycle In Haiti

The motorcycle that the sponsorship staff has been using is worn out. They rely on it to get their work done. **A new motorcycle will cost \$2,700.** It's a stronger motorcycle and will take them where they need to go. Thanks for helping.
